Hank Wagner is the founder of Wagner Leadership Training. He is passionate about helping people be more aware of their potential for success in every area of their lives.

Hank is past president of Professional Dairy Producers of Wisconsin. He also authored the book, "Teachable Moments." It is a book that will touch your heart and change the way you view life. This book was written after a life changing trip taken to one of the poorest parts of the world, Togo, Africa.

Hank is a frequent speaker across the United States, and has articles in Dairy's Bottom Line. He is a certified John Maxwell speaker, trainer, mentor, and coach. Hank has been practicing leadership principles in family, business, and organizations for over 25 years.

Hank believes that happiness, success, prosperity, and the fulfillment of our potential are all connected to our own personal development. Success rarely exceeds our level of personal development, because success is something you attract by the person you become!

Why do I need Leadership?

Our lives are filled with people. People are connected to success in our jobs, businesses, organizations, churches, schools, and even our families. Our goals and dreams often can only be fulfilled with the help of other people. Our happiness, success, prosperity, and the fulfillment of our potential, are all connected to people. If you want more direction in your life, more fulfillment, and better relationships, leadership training will give you some more tools to "make it happen". If you want to bring more success into your life this year, why not invest in growing yourself, and at the same time add value to those around you. Everyone is a leader, and every person is loaded with potential. Only those who continue to learn and grow themselves, come close to being all that they have the potential to be.
